

**Tall Stature**

Dear referring Practitioner,

- Please print and complete this page then fax back with the completed referral.
- Please review the following checklist to ensure that all information is available for more efficient triaging and shorter wait times for your patient.
- Please send this completed application only once results for all required investigations are available. Referrals with pending results will not be triaged until results are available.

**Consult endocrinology when (please check box that applies to your patient) :**

Child is >2 years of age, greater than the 97<sup>th</sup> percentile for height and out of keeping with family heights.

Child >2 years of age progressively crossing centiles upwards for height in isolation (not accompanied by similar crossing centiles in weight)

**Investigations Required:**

Bone age (image to be sent with patient)

Previous growth parameters (height & weight & BMI percentile) on a WHO or CDC growth chart (computer generated growth chart from EMR not accepted)

**Triaging Urgency for Tall Stature Appointments:**

- **Non urgent or Elective-** unless other features present

We strive to meet the triaging times (below), but please note that times may vary in particular for non-urgent or elective referrals.

Thank you

**Categories for Urgency:**

**Emergent-** contact staff endocrinologist on call (905) 521-5030

**Urgent** – within 7 days – **contact staff endocrinologist on call before sending referral (905) 521-5030**

**Semi-urgent**– 1 to 4 weeks

**Non-urgent** – 4-16weeks

**Elective**– Next avail
